

# HSM ProfiPack P425

## Packaging machine

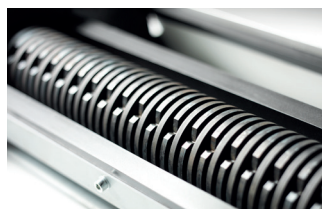

More information at:  
[www.hsm.eu/ProfiPack](http://www.hsm.eu/ProfiPack)

### From waste to packaging material

Used cardboard is made into high-quality packaging material.

### Specially hardened solid steel cutting rollers

Specially hardened HSM cutting rollers ensure absolutely precise cutting.

**This high-performance packaging machine is used to process a number of layers of cardboard into a padding mat or padded filling material. The professional device is mobile on steering rollers and can be used with total flexibility.**

- High quality materials and „Made in Germany“ quality for safety and durability.
- Cutting rollers made of hardened solid steel.
- Powerful, efficient drive concept allows continuous operation.
- Particularly sustainable operation due to the high efficiency.
- Fully flexible feed speed adjustment.
- Adjustable cushioning volume of the packaging material.
- Infinitely adjustable working width with scale for cushioning material made to measure.
- Intuitive operation with LED indicators on robust keypad.
- The integrated turbo-function resolves blockages.
- User safety through emergency off switch.
- Mobile on castors, with parking brake.

Article number	1531154
EAN	4026631062596
Scope of application	Stand-alone device
Intake width	425 mm
Infeed/Loading height	20 mm
Cutting capacity	up to 3 layers
Cutting speed	235 mm/s

Noise level (idle operation)	59 dB(A)
Driving power	1.4 kW
Voltage	230 V
Frequency	50 Hz
Width x Depth x Height	770 x 570 x 1040 mm
Weight	170 kg
Colour	light grey/iron grey

2018-01 \_ Technical and design modifications reserved.
