Product Description:

The OX-ON Recycle Supreme 16601 is an exclusive, extremely comfortable, smooth, durable and flexible glove with perfect finger sensitivity and optimum grip. Whether working with plumbing, electrical, scaffolding or warehousing for example, the Recycle Supreme 16601 is the uncompromising choice for a working glove for both wet and dry environments. And 50% of the glove's knit is made from recycled polyester derived from used plastic bottles. The glove's composition of recycled polyester, nylon and elastane provides incredibly elasticity and a perfect fit for your hand. A palm and fingers are entirely coated in nitrile foam, which in combination with the dots on the palm, ensures a precise grip. The glove is therefore excellent for sanding or assembly work. The OX-ON Recycle Supreme 16601 is also Oeko-Tex certified, which is your guarantee that it does not contain hazardous chemicals or dyes.

Overall, the gloves consist of 24% recycled material.
