# Sterisol SUPER Hand Cleanser

## Properties

SUPER is a gentle hand cleanser which causes no damage to the skin's normal barrier function. Containing vegetable oils, it dissolves dirt while re-fattening the skin. SUPER also incorporates maize as a friction agent and is highly effective against stubborn dirt. 89% of the contents of SUPER Hand Cleanser are of natural origin, (calculated according to the Natural Origin Index from ISO16128).

The product is gentle thanks to the following:

- No preservatives
- No colourants
- No solvents

## Fields of Application & Upcycling

SUPER Hand Cleanser is specially formulated for dirty environments where people are exposed to oily, fatty and dry dirt and need an effective, gentle product to clean their hands. The 2,5l pouches must be used with dispenser, otherwise leakage may occur.

Super Hand Cleanser is thoughtfully formulated for both your hands and the environment. Its exfoliating agent is made from recycled corn, a clever way to repurpose residual materials and reduce waste. The result is a highly effective cleanser with a smaller environmental footprint.

## Tests & Country of Origin

Consumer tests performed in June – July 2018 with excellent results.

Country of Origin is Sweden.

## Environment

Biodegradable raw materials. Low packaging weight. One 2,500 ml bag contains just 34 g of plastic material. A discharge rate of around 99% means less waste.

## Ingredients (3486,3485)

Aqua, Sodium Laureth Sulfate, PEG-4 Rapeseedamide, Zea Mays Cob Powder, Decyl Glucoside, C12-13 Alkyl Lactate, C12-15 Alkyl Benzoate, Cetearyl Ethylhexanoate, Canola Oil, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Capryl/Capramidopropyl Betaine, Parfum, Sclerotium Gum, Sodium Hydroxide, Acacia Gum, Xanthan Gum, Isopropyl Myristate.

## Ingredients (4480)
